

Enhancing Confidence Through Regulatory Innovation

2019 Noia Conference
Scott Tessier, CEO

CNLOPB

“Regulators, under unprecedented pressure, face a range of demands, often contradictory in nature:

be less intrusive – but be more effective;

be kinder and gentler – but don’t let the bastards get away with anything;

focus your efforts – but be consistent;

process things quicker – and be more careful next time;

deal with important issues – but do not stray outside your statutory authority;

be more responsive to the regulated community – but do not get captured by industry”
