Dear Ms Young:

Transport Canada (TC) has reviewed the 'Hebron Project Comprehensive Study Report (CSR) - Response to Review Comments, Part 1' document that was submitted for review on December 2, 2010. The proponent's responses have adequately addressed TC's comments on the draft CSR that were submitted to the CNLOPB on July 26, 2010.

TC would like to remind the proponent that mooring buoys are considered 'works' therefore the placement of moorings will be subject to review under the *Navigable Waters Protection Act* (NWPA). For further information, the proponent should consult the Transport Canada publication "An Owner's Guide to Private Buoys - TP 14799E" available at http://www.tc.gc.ca/eng/marinesafety/tp-tp14799-menu-634.htm.

If you have any questions or comments please feel free to contact me.

Sincerely,

Randy Decker
