Subject:	EDMS: MKI Newfoundland Seismic and Environmental Data Collection Program 2026-2030: Environmental Assessment Review Comments
Date:	Friday, November 28, 2025 1:44:30 PM
Attachments:	20251128_Consolidated Comments MKI EA Newfoundland 2026-2030.pdf

Afternoon Steve and Jason,

The Canada-Newfoundland and Labrador Offshore Energy Regulator, in consultation with our fishery and environmental review agencies, have reviewed the **Multiklient Invest Newfoundland and Labrador Offshore Seismic and Environmental Data Collection Program – 2026-2030 – Environmental Assessment Report.**

We have additional questions and clarifications on the document, which can be found in the attached PDF. These will need to be addressed before the C-NLOER issues a Determination for the proposed activities.

For your information - Individual Responses will be posted on the EA Registry early next week.
https://www.cnloer.ca/assessments/multiklient-invest-newfoundland-offshore-seismic-and-environmental-data-collection-program-2025-2029/

If you have any questions, don't hesitate to get in touch.

Have a great weekend,
Melissa
